## EXPERIENCE

### Nia Lashes by Denise — Full Stack Developer

E-commerce single page application for eyelash extensions. Participated in the design and development of every aspect of the web app. Technologies used: Vue Js, BootStrap, Express, and MongoDB (MEVN stack).

### Invoice Generator — Full Stack Web Developer

An online, account based, invoice generator, along with an inventory system. A CRUD web app for keeping track of inventory and invoices. Technologies used: React Js, BootStrap, Express, and MongoDB (MERN stack).

### Fedex — Facer

August 2020 - Current

Ensure sorting machines are running. Point out any probable inefficient redundancies. Self-management.

### El Rancho Unified School District — Avid College Tutor

October 2018 - June 2019

Tutor middle schoolers in various subjects, but mostly math. Be a proactive college-bound role model.

## PROJECTS

### Wordle With A Friend — Full Stack Developer

An online implementation of Wordle. Utilized skills such as real-time connectivity using web sockets. Technologies Used: Vue Js, BootStrap, Express, Socket.IO.

## EDUCATION

### California State University Fullerton — Bachelor of Computer Science

August 2015 - December 2020

Graduated with a Bachelor of Computer Science in December 2020. Learned the fundamentals of programming.
